3D hinges with three guide pins - available with Aluthermo 55, Aluthermo 73, Comfort 73 and Comfort 73 Eco packages. The three guide pins provide better distribution of forces acting on the hinge which equals in much better stability of the doors. As a consequence they do not go down and keep their mechanical properties for a long time.

Planibel Dark Grey glazing - 6mm pane of dark colour glass provides even greater comfort and privacy

Black colour warm edge spacer - it gives the doors a modern, elegant look which may complement both contemporary and classic designs

4 in 1 electromechanical ROTO strip lock - it is a highly advanced multi-function solution for securing the door that combines comfort and high level of security. The lock ROTO offers four different ways of opening: fingerprint reader, code PIN, RFID card or app. It allows users to choose the most suitable way of access.

Klinaryt sill - threshold extension made of klinaryt is a state-of-the-art solution bringing a lot of advantages in terms of thermal isolation, construction stability and durability. Klinaryt is resistant to humidity, mildew, corrosion and weather conditions what makes it a perfect material for external doors. The threshold extension is compatible with all of our door packages. The length of one segment is 118 cm. Height from 5 to 250 cm, increment by 1 cm.

A steel leaf in the deep shade of black, together with aluminium frame, is a combination that guarantees reliability and durability. The golden anodised and brushed decorations give it a touch of elegance. These subtle, sophisticated details emphasize a unique, luxurious character of this collection. Perfect finishing together with delicate ornaments will make your house look exclusive and will make your door not only a functional but also a trendy element. The harmonious composition of golden applications on black colour draws attention and looks prestigious combining modernity with luxury as a unique element of home design.

Standard package:

- 4-rebates black matt leaf 55mm or 73mm
- PUR foam infill
- aluminum black matt frame
- black strip lock ROTO with one or two cylinders
- golden anodised applications
- handle AXA FAST or rectangular, straight pull handle 160cm
- cylinders class A
- hinge covers in black matt
- locking latch with day/night function with pull handle

Handle AXA Fast and pull handle are available in golden F3 or black F8

Cross-section Aluthermo 73

- A** the door leaf skin is made of steel sheet protected against corrosion and covered with a high-quality film resistant to UV radiation and atmospheric conditions. The leaf is equipped with an additional lower gasket

B the infill is made of injected polyurethane foam (PUR), ensuring significantly higher thermal insulation parameters than expanded polystyrene

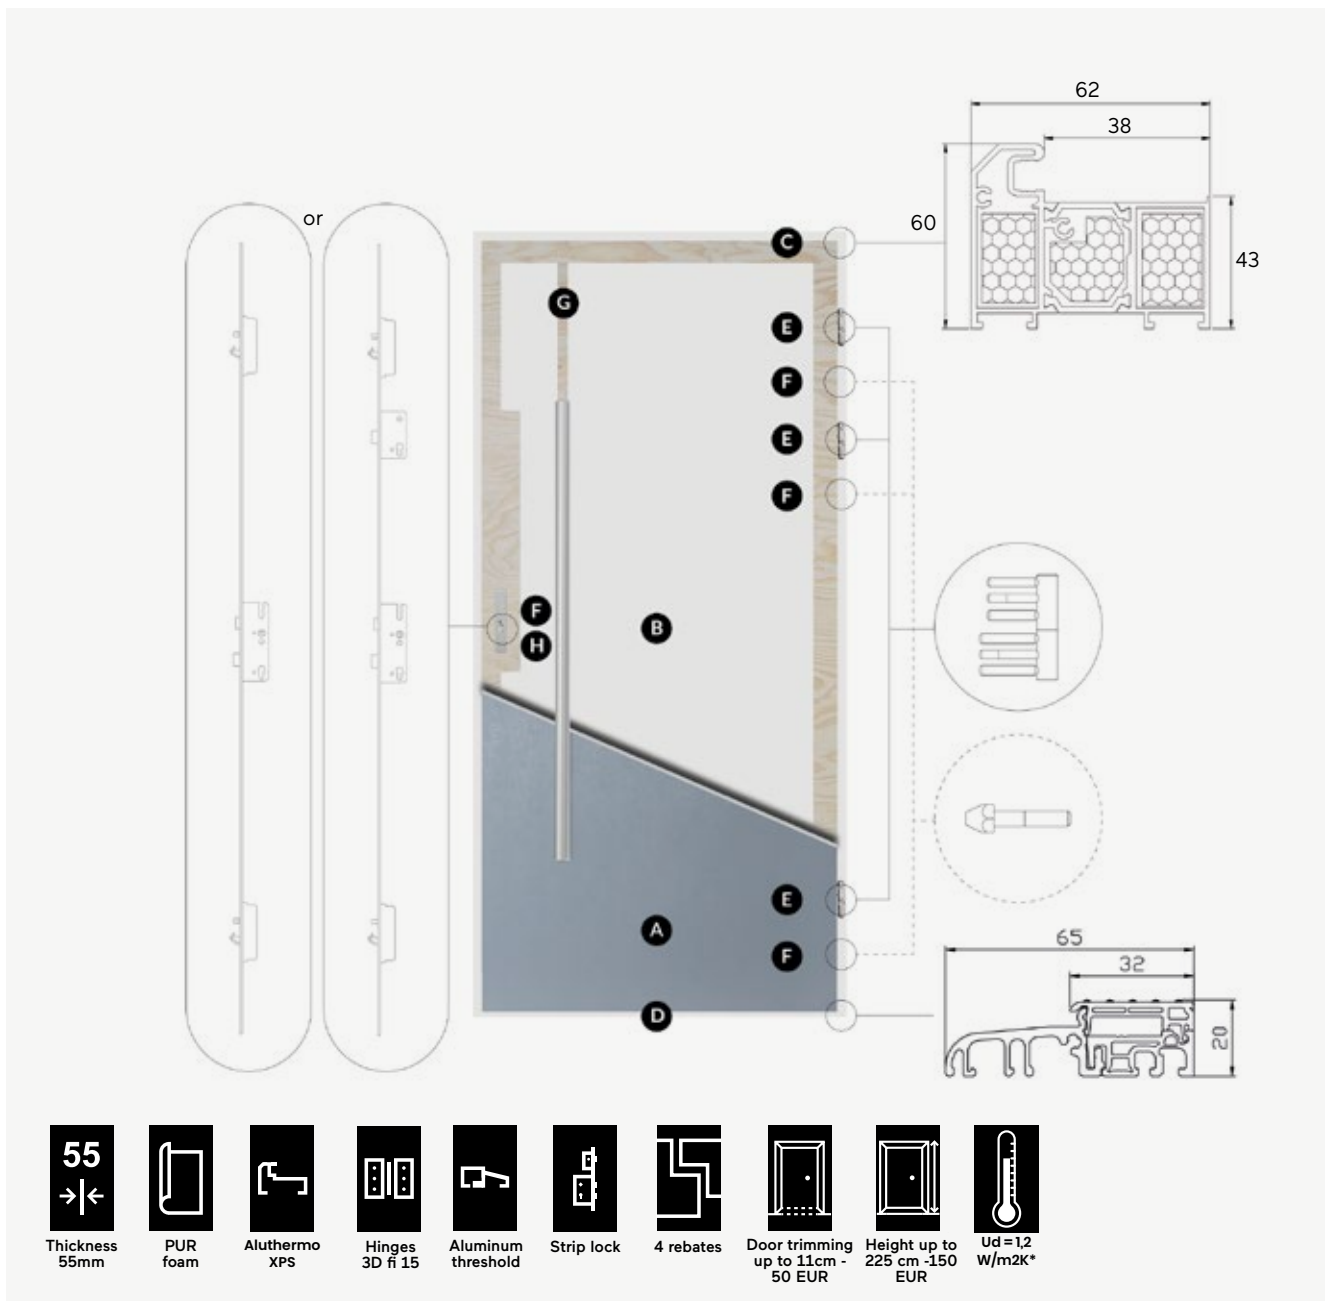

C aluminum frame filled with XPS

D Alu Thermo Roto commercial threshold (threshold height 19.6 mm)
- E** the door is equipped with three 3D hinges with a diameter of 20 mm, significantly facilitating their adjustment and their functionality

F the leaf is equipped with a strip lock, which provides the highest comfort and with three interlocking bolts

G the door structure is based on a stile made of high-quality, waterproof, hardwood plywood – this ensures excellent mechanical stability of the door in changing weather conditions

H deadbolt adjustment
